

GOVERNMENT OF KERALA

Abstract

Information Technology Department - Integrated Government Service Gateway (IGSG) based Map Info System - Standardization of application - guidelines issued - Orders issued.

INFORMATION TECHNOLOGY (B) DEPARTMENT

G.O. (P) No. 8/ 2010/ITD

Dated, Thiruvananthapuram, 3.3.2010.

Read: - 1. G.O.(P) No. 24/09/ITD dated 24.09.2009.
2. Letter No. KSITM/IGSG/2008/1260/09/3684 dated 24.12.2009 from the Director, Kerala State IT Mission.

ORDER

Government has issued consolidated instructions as per the GO read as first paper above regarding e-governance applications implemented by Government Departments/Organisations. In furtherance of the instructions, it is hereby ordered that all Government Departments/Govt. Organisations shall take immediate steps to provide map based info system using standardised Integrated Government Service Gateway (IGSG) application on their respective websites.

Integrated Government Service Gateway (IGSG) is a FOSS based geographical information portal, which serves as a map-based information for all the Government offices, tourist destinations, and other places of historical significance in Kerala. A web GIS application has been developed which acts as a gateway to all location related information about Government offices which can be provided to the public. It displays details of location, how to reach a particular office, route and shortest path between two destination/offices etc. to the citizens.

The Web GIS application is developed in a Wiki-model. A user can add, edit delete the details of places, offices and landmark information to the map which is located anywhere in Kerala. The Wiki Facility allows the users in the portal to add, edit, delete the details of new Offices, Landmarks and Places into the Portal. User accounts and access permissions can be obtained from KSITM.

Based on the request from Departments/Government Organisations, KSITM will create a layer of map which contains all the office details of the particular department and create a web page including the layer. The

department can incorporate the page into their website and the incorporated map will display the details of the particular department.

If the department desires to display a particular portion of map only, that would also be possible. Using integrated map the department can easily find an office location with details and the intensity of offices in a particular geographical location.

(BY ORDER OF THE GOVERNOR)
Dr. Ajay Kumar,
Principal Secretary to Government.
